

## DELTA-Pouch

Automatic Labeler

The Delta Pouch automatic labeler is versatile, allowing single side or dual side label application on empty pre-made stand-up pouches or bags. It is ideal for production environments that need to cater to a wide range of products on small batch runs.

A printer attachment allows the labels to be pre-printed on the machine before applying them to the pouch.

An Exclusive H400 feature is the twist on/twist off Core and rewind holders. Just twist a knob and the core is released to load fresh Labels. The same system for the backing paper. Just the faster label changes will probably pay for your Head!

The DeltaPouch also includes a shingled conveyor feeder that provides an autonomy of approximately 5 minutes of operation.

# ECO-Pouch Automatic Labeler

An Exclusive feature is the twist on/twist off Core and rewind holders. Just twist a knob and the core is released to load fresh Labels. The same system for the backing paper.

## Infeed Conveyor

The infeed conveyoy enables ziplock bags to be handled as well, along with a servo driven singulator.

## Operation

Label positions can be adjusted while the machine is running  
Status of machine appears on optional touch screen  
High label placement accuracy with servo label heads gulator.

The Eco Pouch automatic labeler is versatile, allowing single side or dual side label application on empty pre-made stand-up pouches or bags. It is ideal for production environments that need to cater to a wide range of products on small batch runs.
